| What is the #1 topic concerning your campaign?

I'm not campaigning, just seeing if the voters are happy with how I have represented them in the last 3 years. My concerns are theirs and slowing the town's expansion is the biggest I hear about.

| 2.) How long have you lived in Hendricks County?
Since 2009

| 3.) How long have you been in politics?
0 years, 0 weeks, 0 days. I am not a politician.

| 4.) What previous political positions have you held?
I've been serving my community since 1.1.2020. Before that I was president of the redevelopment commission.

| 5.) What is something that you hope to impact the most?
The #2 complaint I hear is about our high utility bills.
I'm doing research to find out why the town has apparently given Steel Dynamics a pass on agreements for their waster water use rates but shuts off homeowners and renters who hit the 60 and 90 day past due mark.
